Re: File numbers Room 9208 / RM 9242

Gentlemen/ Ladies:

The FCC has in the past acted hastily to propose and implement such rules and regulations to the detriment of FM radio and the public interest. We will always have to live with the interference caused by Docket 80-90.

I hope the FCC learns from these past mistakes and get more technical information  
Passing the above and cause the most damaging interference we have ever encountered  
on the FM radio band.

Please do not pass the above.

Sincerely,

Jim Kellstrom, President  
Kellstrom Broadcasting, Inc, KLXQ (FM)  
Kellcomm, Inc. KZBR (FM)

Re: File numbers Room 9208 / RM 9242

Gentlemen/ Ladies:

I have been in the radio broadcasting business a long time and enjoyed it very much.  
I have seen the FCC make a lot of changes some, good, some very bad.

The above proposed rule making will, in my opinion move to the top of the list as the most damaging to the FM band.

In the interest of the public good throw this idea out. At least investigate it further before passing.

Sincerely,

Levoy Patrick Demaree, President  
Demaree Media, Inc.  
KFAY AM/FM, KKEG (FM)  
Fayetteville, Arkansas 72702
